

Backing up Proloquo2Go to the Mac

Note: Before plugging the iPad into your computer make sure iTunes will not automatically start syncing. In order to do this:

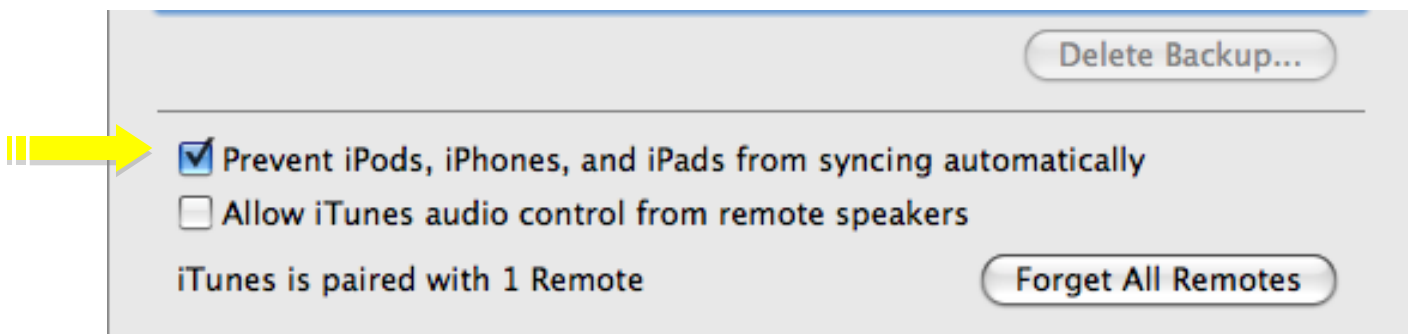

1. Open iTunes
2. In the iTunes menu click on Preferences. Another box will open up.

3. Click on Devices

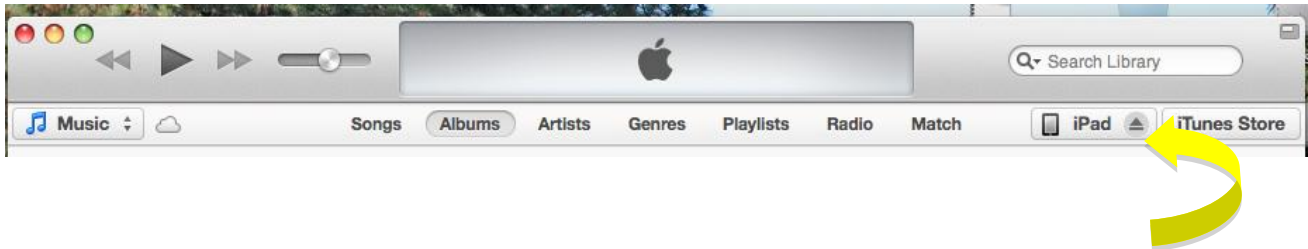

4. Toward the bottom of the window, an option to toggle a box titled: "Prevent iPods, iPhones, and iPads from syncing automatically". This should be checked.

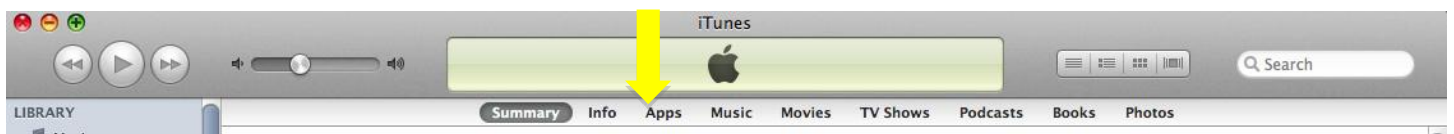

This process only needs to be done once but if a mistake is made and the box is not toggled, your device may start syncing resulting in erased apps and information.

Continue with the Backing up Proloquo2Go to the Mac

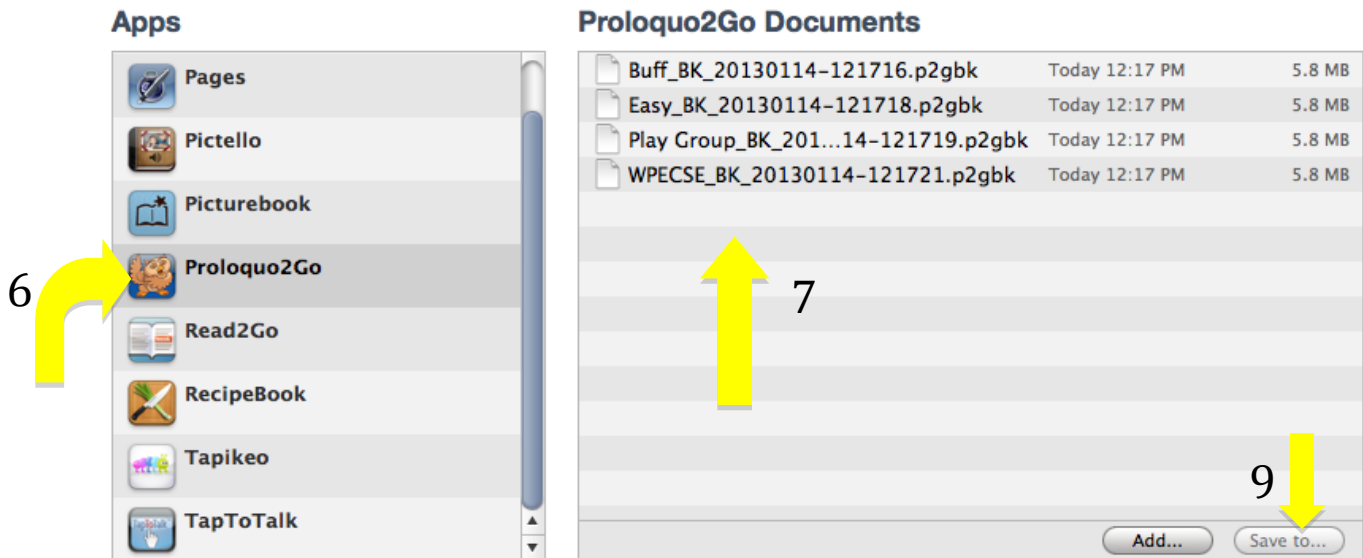

1. Plug your iTouch or iPad into the computer.
2. Open iTunes. When the computer recognizes your device it will be visible in the top menu.
3. Single click on your device.

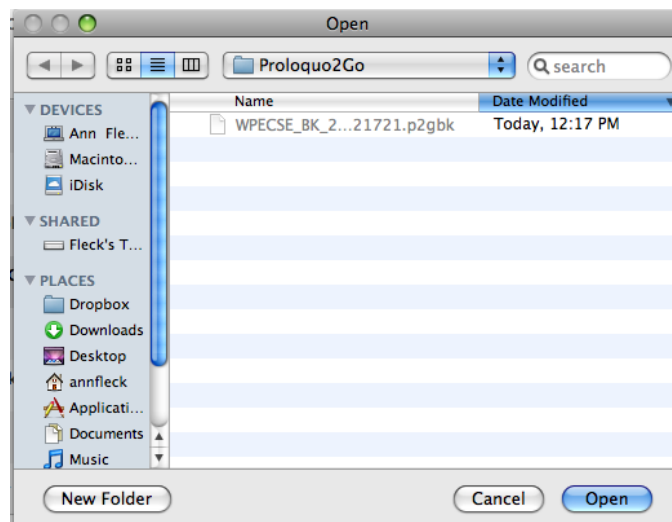

4. Click on Apps

5. Scroll to the bottom of this window to view “File Sharing”. An area is visible with apps that can transfer documents between the iPad/iTouch and the computer.

6. Click on Proloquo2Go
7. On the right hand side; Proloquo2Go Documents will appear with the users saved on the device.
8. Click on the documents to be saved (User Profile).
9. Click “Save To” in the bottom right hand corner. A new window will open. This window will indicate where – on the computer – the user information will be stored. You may wish to start a New Folder to store all Proloquo2Go documents.

10. Click “Open”.

You have successfully placed back ups of Proloquo2Go Users onto your computer.
