

## LOADING A BOOKSHARE BOOK ONTO A KINDLE

The Kindle book format is MOBI. Bookshare books need to be converted to this format in order to be able to be put into the Kindle. We use the Calibre e-book software to make the conversion <http://calibre-ebook.com/> .

Install this on your computer before downloading the Bookshare books.

When you first open Calibre, it will ask you if you want to specify a certain e-book reader. Choose the Kindle.

1. Download Bookshare Book (Daisy book)
2. Unzip Bookshare Book
3. Right Click on the .xml version of the book
4. Select Open with, and choose *Firefox* (Internet Explorer will not work for this)
5. Save Page as "Web Page, Complete". Select the folder where the xml book is stored.
6. Close everything out and open Calibre.
7. Select "Add Book", then find the folder where the converted book is (it will have the Firefox icon)
8. Select convert book, then choose the MOBI format in the upper right hand corner
9. Plug in the Kindle. The Icon Bar will change, then select Add to Device. Watch the lower left hand part of the Calibre screen to view the syncing process. When it's finished, go back to the Device and eject it.
10. The book is on the Kindle and you are ready to read!

### LOAD A PDF INTO KINDLE

Go to MY COMPUTER>KINDLE>DOCUMENTS> Click and Drag PDF into this folder. Eject Kindle
